ing standard, such as, swimming pool, wi-fi connectivity, kids play area, sports facility, multipurpose hall, 100 per cent power back up, piped gas supply and jogging track.

Even developers from Noida are also eyeing Gurgaon now thanks to sudden influx of people from other smaller towns. After taking Noida to new heights, Supertech Group has promised to take Gurgaon to another level in high rise. Their two, three and four bedroom luxury apartments in sector 79 will provide modern architecture along with natural beauty. World-class clubhouse, swimming pool, gymnasium, kids play area, sports facility and Internet connectivity are some of the features that it will provide. There are several malls and shopping complexes surrounding the apartments with other ultra modern amenities.

In order to cater to environmental prob-

lems and keep the residents away from the city's hassle, builders are constructive eco friendly environment. DLF's upcoming integrated eco-friendly township DLF Garden City too is becoming a priority for the buyers. Equipped with amenities such as schools, hospital, theme parks, modern club, retail stores, landscaped gardens, security, recreational zones, power back-up, it includes park, water bodies, lakes, sports ground, stadium and schools and has a well-planned underground services.

With the several new residential projects coming in Gurgaon, Ashok Singh Jaunapuria, Executive Director, S.S. Group, who has recently launched Coralwood specifying the boom of residential complex in Gurgaon says, "Concept of large condominium complexes with most luxurious specifications, facilities and infrastructure has attracted people of NCR to settle in Gurgaon."
